G.W. Becker, Inc. is a full service, single source, provider of choice for quality overhead crane products & solutions.

Family owned since 1980, we have grown from a local overhead crane parts supplier to a recognized industry leader offering a full spectrum of overhead crane related products and services throughout North America. We provide specialized expertise and long-term planning solutions for the unique challenges of maintaining overhead crane equipment for manufacturing facilities. We have positioned our company to offer application assistance, custom design engineering and manufacturing of overhead crane products with our customer's needs first and foremost. Our breadth of capabilities provides efficient and cost effective solutions for all overhead material handling requirements.

CRANES & HOISTS

- Custom Cranes and Material Handling Equipment for Most Applications
 - Full Automation
 - Hazardous Duty
- Packaged Cranes
- Crane and Hoist Types
 - Double, Single & Mono-box Girder
 - Gantry
 - Patented Track System
 - Jib
 - Workstation
- Full Line of Industrial Hoists
 - Wire Rope & Chain
 - Electric, Hand, Pneumatic & Lever

ENGINEERING

- Mechanical, and Electrical Expertise
- Machine Design - Including Gear Design
- Structural Engineering, Design and Analysis
- Asset Management
- AC and DC Controls Including Automated Systems
- Software Systems Utilized:
 - Autodesk AutoCAD
 - Autodesk Inventor Simulation Suite
 - STAAD Pro Structural Analysis

SERVICE

- Inspections; Periodic & Frequent
- Preventive Maintenance
- Runway Surveys and Inspections
- Non-Destructive Hook Testing
- Installation / Commissioning / Load Testing
- Teardown and Evaluations
- Factory Authorized Warranty Repairs
- Hoist Re-Certification
- Emergency Service Abilities
- Retrofit, Modernizations and Upgrades
- Site Contracts

TRAINING

- Overhead Crane Operator
- Overhead Crane Rigging & Loading
- Overhead Crane Operator Train the Trainer
- Overhead Crane Frequent Inspection and Maintenance

QUALITY ASSURANCE

- Certified Welders per AWS D1.1 & D14.1
- Non-Destructive Testing (NDT)
- Metallurgy Evaluation Hardness
- Laser Alignment Systems
- Materials and Processes Certification
- Formal Non-Conforming Materials Identification and Disposition System

MANUFACTURING SPACE

- 72,000 SF Facility – 60 Ton Lifting Capacity
- Advanced Material Preparation
- Machine Shop with CNC Capability
- Rebuilds and Modifications

PARTS

- Parts Available for all Makes and Models
- Authorized Parts Distributor of CM, Shaw-Box, YALE, R&M, ACCO, Gorbelt, & More
- Motors Control
 - AC, DC and Variable Frequency
- Gearboxes and Drives
- Master Switches
- Runway Electrification & Festoon Systems
- Pushbutton Stations
- Radio Controls
- Limit Switches
- Lower Blocks
- Hooks
- Sheaves
- Brakes
- Custom Brake Wheels
- Wheels and Wheel Assemblies
- Reverse Engineering
- Below-the-Hook Devices
